RE: This letter relates to Civil Action Number: 07-2867 (HLH), MDL No. 1850

Your Honor:

Please accept this letter as my response to the court that I strongly disagree and I am up-set with this proposed settlement.

I do not have the means to pursue a fair and just response to the calculated risk this company or the people took when they chose to relax their quality control by not monitoring their finish product they manufactured.

I never realized how a person could feel so much for an animal until it happen to me. My cat (Metzi) was my only companion for many years and when the vet called to tell me she would have to be put to sleep because she has lost all kidney function and would not recover; that was hard to take. But it really hurt and still hurts, was when the Vet called to ask if I wanted to come back and hold her and say goodbye while she went to sleep.
